AMERICA'S MOST **LIVEABLE** RVs.  
 "Liveable," to our customers, it could mean comfort. To our designers, it's a refined, ergonomic floorplan. For those who build them, they see value. The definition is most likely "all of the above" ...and then some.

## MORE SPACE. MORE LUXURY.

The LGT means a spacious living room, a queen size bed you can actually walk around and a kitchen you'd be happy to have in your own home. Add some "must haves" like a Dolby® Surround Sound theater system with DVD player and you still can tow all of this with your full size SUV\*.

29 N

29 N

1. Relax and unwind after a fun-filled day in the comfy, walk-around queen bed.
2. The residential-style bathroom looks and feels like home; and comes standard with a medicine cabinet with mirror and powered attic fan (included in the Customer Value Package).
3. The Jay Feather's spacious kitchen includes a 3-burner range top, oversized oven and microwave oven (included in the Customer Value Package).

\*Please refer to your automobile manufacturer specifications for your vehicle's tow rating.

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, LP gas, options, or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

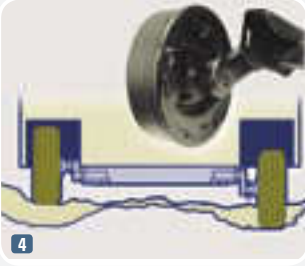

\*Includes water heater capacity

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, LP gas, tools, other cargo, and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the road. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up, and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. **See specification chart above.**

### Built to Last.

1. Our corrosion-resistant frames are finished with a 12-stage E-Coat™ finishing system and come with a lifetime warranty.
2. Our TuffShell™ walls and floor are constructed using a vacuum-bonded lamination process. TuffShell™ construction results in a smoother finish and a more durable body than traditional pinch-roller construction.
3. The Jay Feather frame is 10-15% lighter and significantly more rigid than the frame of conventional travel trailers. Tapered rails place the strongest part of the frame over the axles. Instead of welding, our modular frame design features “huck” bolt assembly and interlocking dimples.
4. Tor-Flex® independent torsion-axle suspension gives more ground clearance, provides a smooth ride, makes towing easier and reduces wear and tear by absorbing bumps.
5. Our one-piece PolyFlex™ underfloor covering design protects your Jay Feather from road debris and improves aerodynamics.
6. Jayco has been blessed with some of America’s finest craftsmen who make Middlebury, Indiana and the Jayco plant their home and workplace. Generation after generation, a legacy of tried-and-true construction methods is passed down, continuing the tradition of quality and durability that has helped Jayco grow into a true industry leader.

### We Back What We Build.

The Jayco Co-Pilot Warranty is a manufacturer’s limited warranty. It doesn’t come from your dealer and it’s not an extended warranty! It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. In addition, our limited warranty may be transferred one time within the warranty period. Go ahead and compare the Jayco warranty with other manufacturers’ warranties. You’ll find it’s the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our website at [www.jayco.com](http://www.jayco.com).

### Your Jayco Dealer

See above dealer for further information and prices.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari “flight” in your area, write Jayco, or visit our web site.
